Pharmacy Director

### New Additions to the Pharmacy:

Pharmacists are now providing MTMs (Medication Therapy Management) to Medicare-D HOPES patients which include, CMRs (Comprehensive Medication Review) and TIPs (Targeted Intervention Program). There are currently 101 patients enrolled in the Outcomes MTM platform and 134 claims have been submitted.

### MTMs allow pharmacists to:

- Help patients overcome barriers to adherence
- Address gaps in therapy
- Educate on medications and disease states
- Reduce use of unnecessary or potentially harmful therapy
- Assess for adverse effects
